

Capital Office Interiors Seating Supply Arrangement

E60PQ-120001/048/PQ

We have hundreds of seating answers that began with thousands of human-centered questions.

The places where people come together to work, really matter. That's because place has an impact on human behavior and the ways people work. For over 100 years, Steelcase has been studying people at work, wherever they work.

Steelcase has spent more than 60 years asking, "How can chairs serve people better?" The answers have come in hundreds of forms – the widest variety of office chairs anywhere.

We use those insights, and our portfolio of integrated solutions, to help our clients create places that do more, in less space. Places that are more connected, more engaging, more inspiring. Places that help organizations – and their people – unlock their true potential.

Whatever you ask of seating – productivity, high style, environmental performance – Steelcase has your answer.

Task Chairs

Gesture

Office Chair
E60PQ-120001/048/PQ

Technology is the single greatest force driving the changes in the way we work, live and behave. The new, multiple devices we deploy throughout our work day allow us to flow between tasks, fluidly and frequently.

Whether large or small, Gesture promises personalized and custom comfort for all users in one simple solution. We didn't start with a chair design; we started by looking at the unique movements and features of the body. Like the human body, Gesture is designed as a system of synchronized interfaces, designed and engineered to be intuitive to adjust.

Gesture is the first chair designed to support our interactions with today's technologies. Inspired by the human body. Created for the way we work today.

Leap

Office Chair
E60PQ-120001/048/PQ

With an exceptional range of adjustments, Leap delivers full support for various body shapes and sizes.

Movement is healthy and Leap supports your body in reducing pressure on the spine, sending oxygen to your muscles, and increasing blood flow to your brain. Changes in posture help you stay comfortable and more attentive.

Your body is unique. You need a chair that easily adjusts to fit you, your preferences, and how you work. Leap’s Natural Glide System™ enables you to comfortably recline without straining your eyes, neck, or arms.

And a chair that is good for people should also be good for the environment. Every material, every stage of a Leap chair’s life, is designed to respect and nurture human and environmental health.

Think

Office Chair
E60PQ-120001/048/PQ

The Think chair easily supports all types of work, from collaborative group work to focused work. Think easily integrates into today’s workplace, providing comfort and support no matter the task or type of work.

Think is smart enough to support both impromptu collaborative work, or an all day sit needed for focused work. It intuitively adjusts as a user moves, allowing them to get to work faster.

Think easily creates maximum customized comfort with a minimal number of adjustments. The integrated LiveBack system, combines a flexible back frame, linked flexors and dual-energy lumbar to intuitively sense and respond to user's needs.

Think features a refined aesthetic, combining beauty and functionality. A variety of surface materials and a range of product options, make it easy to integrate Think into any application.

Series 1

Office Chair
E60PQ-120001/048/PQ

Steelcase Series 1 was thoughtfully designed with the performance you’ve come to expect from Steelcase. With integrated LiveBack® technology, adaptive bolstering and 4D adjustable arms, Steelcase Series 1 delivers dynamic performance without sacrificing attainability.

Integrated liveback® technology with adjustable lumbar support allows the chair back to change shape and mimics the user’s spine as it moves throughout the day. Contours to fit a user’s spine through a system of flexors tucked neatly inside the backrest, offering continuous lower-back support as you move in your chair.

Adaptive bolstering enables the seat to conform to the user’s shape, providing dynamic support that can adapt to the body as postures change.

FEATURES

Backrest	3D Micro Knit
Arms	Height/width/pivot/depth adjustable Height adjustable Armless
Additional Options	Adjustable headrest Coat hanger Polished aluminum base Hard or soft casters

Amia

Office Chair
E60PQ-120001/048/PQ

Amia is a hardworking, versatile seating solution designed to handle long hours of serious sitting. With fully upholstered back and arms, Amia brings an element of sophistication to any workspace.

Tucked away inside its backrest is Amia’s patent-pending LiveLumbar – a system of flexors that contour to fit your spine, for continuous lower back support as you move in your chair. You may not see it, but you’ll certainly feel it. As you sit in the chair, an adjustable LiveLumbar zone flexes with your every move, for consistent ergonomic support for your lower back. Hour after hour, day after day.

With additional comfort features like 4-way adjustable arms, adjustable seat depth and a flexible front seat edge, Amia keeps you feeling good. It’s a chair for every day, that’s not your everyday chair.

Model – 4821410

SILQ

Office Chair
E60PQ-120001/048/PQ

Inspired by advances in material science, Steelcase created SILQ™ —a breakthrough in seating design. Its innovative materiality is both mechanism and artistry.

The way SILQ is sculpted, the way it performs and what it’s made of are inseparable.

When you sit in it, you become a part of it. SILQ delivers a personal experience that responds to the unique movements of your body and its wide range of material combinations create a canvas for personal expression.

With work being more dynamic then ever—we need a chair that’s minimal, versatile and suited for beautiful spaces. SILQ supports work in collaborative meeting spaces, conference rooms, nomadic benching environments and touchdown spaces.

Cobi

Office Chair
E60PQ-120001/048/PQ

The cobī office chair by Steelcase was designed to foster collaboration and promote movement, creating a perfect solution for meetings and conference rooms.

Every part of cobī was designed to flex and adjust to your body.

The chair’s top flexing edge lets you comfortably rest your arm on top of the chair—you know, like you’ve tried to do on every chair you’ve ever sat in. The flexing seat encourages you to move and shift, allowing you to sit centered or off to the sides. And the flexing back contours to support any posture your body needs at any given moment.
