Gesture

by Steelcase
Sub-Category - Task

Gesture is the first chair designed to support our interactions with today's technologies.

RANGE OF TECHNOLOGY

Gesture supports movement between devices and healthy postures when interacting with technology.

The Gesture 360 arm moves like the human arm, which allows users to be supported in any position. Arms and shoulders remain supported when texting on a smartphone, typing on a keyboard or swiping on a tablet.

RANGE OF POSTURES

Gesture supports the greatest range of postures in three ways: through the back, the seat and the arms. With 3D LiveBack, Gesture mimics the natural motion of the spine contouring to the user, creating the deepest recline.

RANGE OF USERS

Today's workplace has to accommodate a wide range of users sizes. Most chairs are only designed to fit one person: the average.

Whether large or small, Gesture promises personalized and custom comfort for all users in one simple solution, all while utilizing a minimal footprint

Leap

by Steelcase
Sub-Category - Task

Changes in posture help you stay comfortable and more attentive. Leap office chair's Natural Glide System™ enables you to comfortably recline without straining your eyes, neck, or arms.

THE SPINE DOESN'T MOVE AS A SINGLE UNIT

When you recline, your upper spine moves backward and your lower spine arches forward.

EACH INDIVIDUAL'S SPINE MOTION IS UNIQUE

Even for people of identical size, age, and gender, each spine moves differently.

Vision and reach impact your posture. When you recline in traditional chairs, the distance between you and your work can increase, which in turn can strain your eyes, arms and neck.

Think

by Steelcase
Sub-Category - Task

Think is the chair with a brain and a conscience. It's intelligent enough to understand how you sit and adjust itself intuitively.

The Think chair is an adjustable office chair that senses what your body needs. The Integrated LiveBack™ System conforms to your body and moves with you as you change postures. It features an advanced weight-activated seat, so anybody can get comfortable, quickly.

3D Knit or Upholstered back

Series 1

by Steelcase
Sub-Category - Task

Steelcase Series 1 office chair delivers performance, style and choice. It retains everything that's valued in a chair, while making it attainable for everyone

With a lightweight, slim profile and one of the smallest footprints – Steelcase Series 1 performs well in any setting from collaboration to focus spaces.

Steelcase Series 1 was thoughtfully designed with integrated LiveBack technology, adaptive bolstering and 4D adjustable arms, delivering the dynamic performance you've come to expect from Steelcase.

Amia

by Steelcase
Sub-Category - Task

Amia is a hardworking, versatile ergonomic office chair that adds an element of sophistication to any workspace.

Whether it's the conference room, a personal workstation, or the home office, the versatile design of the Amia office chair fits into any work environment.

The flex you feel when you lean against Amia's backrest is its unique LiveLumbar™ technology. Different than a typical lumbar "cushion," LiveLumbar is a system of flexors that move with your back for consistent, dynamic support. Two handles on the chair's backrest let you slide the LiveLumbar to the ideal position for you.

Silq

by Steelcase
Sub-Category - Task

The performance is intuitive. It responds to the natural movement of the human body. The way you move is the way it moves.

The idea for SILQ was clear; we wanted to create a chair that's simple, more organism than machine. One that operates intuitively and invites the human body to participate in the experience.

To get there we pushed the boundaries of material science. Through explorations with carbon fiber, we achieved our vision. But it was a material process breakthrough that embodies the qualities of carbon fiber, that allows us to deliver on our aspiration at mass scale.

Cobi

by Steelcase

Sub-Category - Task

The Cobi office chair by Steelcase was designed to foster collaboration and promote movement, creating a perfect solution for meetings and conference rooms.

There's no such thing as a quick meeting. We spend more time collaborating today than ever before. Squirming, fatigue, and loss of focus are unavoidable. Let's face it. Working with others requires a completely different set of postures, and thus, a completely different kind of chair. One that helps keep you comfortable and focused in collaborative settings like conference and training rooms.

Task Stools

Protege

by Steelcase

Sub-Category - Task

Protégé is perfect in meeting rooms, as a guest chair, or for short-term work areas

This simple and supportive chair provides you with what you need for every task you take on throughout your day.

Protégé fits perfectly into smaller workspaces — and budgets.

Contoured for your comfort, Protégé comes with a wide variety of adjustments and fabric

Jack

by Steelcase

Sub-Category - Task

Jack by Turnstone delivers sturdy, hard-working comfort for all-day support

Jack adapts cleverly to your natural movements and has simple controls that are easy to find, understand and use

Player

by Steelcase

Sub-Category – Guest | Side | Stacking

The simple and durable Player chair is a convenient, comfortable, stackable chair for a multitude of uses

It's the perfect solution for high traffic areas like waiting rooms, classrooms, cafes or multi-purpose spaces. A true "team player," its slim, quiet aesthetic fits in just about anywhere.

Key Features

- The four-leg version of the Player chair stacks six-high on the floor and eight-high on the dolly.
- Available with or without arm

Available on casters and as a sled base.

Move

by Steelcase

Sub-Category – Guest | Side | Stacking

Move stackable side chairs are a durable solution available with a variety of options.

Match an existing office design or outfit a new space with Move. Upholster with fabric, leather or vinyl. Or choose non-upholstered options with 144 possible seat and back color combinations.

Plastic or Upholstered seat and back, arms or armless, casters or glides.

Scoop

by Turnstone
Sub-Category – Lounge

Scoop is simple, durable and functional. Perfect for project teams, meetings and other collaborative work. A generous size seat gives you plenty of wiggle room. You can also order an upholstered version that adds a little cush and a splash of color.

- Clean and simple design.
- Optional seat cushion option for added comfort and a pop of color.
- Durable and cleanable.
- Generous sized seat

Shortcut

by Steelcase
Sub-Category – Guest | Side

Sleek, modern and incredibly versatile, Shortcut by Turnstone offers simple sophistication for the way you work.

With a comfortable plastic shell and a range of options, Shortcut is a true multi-purpose chair.

- Flexible plastic shell available in 11 color options.
- Back cut-out is designed to offer extra flexibility and comfort.

Shortcut's patented elbow rests let you use devices with elbows fully supported or pull close to your desk without the hassle of adjusting arms. Shortcut's generous seat allows for easy-in, easy-out mobility to keep pace with your busy environment.

5 star base, wire base, stool and wood base options.
