# Gesture

by Steelcase  
Sub-Category - Task

Gesture is the first chair designed to support our interactions with today's technologies.

## Range of Technology

The Gesture 360 arm moves like the human arm, which allows users to be supported in any position.

## Range of Postures

With 3D LiveBack, Gesture mimics the natural motion of the spine contouring to the user, creating the deepest recline.

## Range of Users

Whether large or small, Gesture promises personalized and custom comfort for all users in one simple solution.

BIFMA Level® 3

Seat Finish	Upholstery
Stool	Yes
Backrest Profile	Rectangular

# Leap

by Steelcase

Sub-Category - Task

A perfect fit with an exceptional range of adjustments, the Leap office chair delivers full support for various body shapes and sizes.

## The spine doesn't move as a single unit

When you recline, your upper spine moves backward and your lower spine arches forward.

## Each individual's spine motion is unique

Even for people of identical size, age, and gender, each spine moves differently.

Vision and reach impact your posture. When you recline in traditional chairs, the distance between you and your work can increase, which in turn can strain your eyes, arms and neck.

BIFMA Level® 3

### Features:

# Think

by Steelcase

Sub-Category - Task

Think is the chair with a brain and a conscience. It's intelligent enough to understand how you sit and adjust itself intuitively.

The Think chair is an adjustable office chair that senses what your body needs. The Integrated LiveBack™ System conforms to your body and moves with you as you change postures. It features an advanced weight-activated seat, so anybody can get comfortable, quickly.

3D Knit or Upholstered back.

# Series 1

by Steelcase  
Sub-Category - Task

Steelcase Series 1 office chair delivers performance, style and choice. It retains everything that's valued in a chair, while making it attainable for everyone

With a lightweight, slim profile and one of the smallest footprints – Steelcase Series 1 performs well in any setting from collaboration to focus spaces.

Steelcase Series 1 was thoughtfully designed with integrated LiveBack technology, adaptive bolstering and 4D adjustable arms, delivering the dynamic performance you've come to expect from Steelcase.

# Amia

by Steelcase

Sub-Category - Task

Amia is a hardworking, versatile ergonomic office chair that adds an element of sophistication to any workspace.

Whether it's the conference room, a personal workstation, or the home office, the versatile design of the Amia office chair fits into any work environment.

The flex you feel when you lean against Amia's backrest is its unique LiveLumbar™ technology. Different than a typical lumbar "cushion," LiveLumbar is a system of flexors that move with your back for consistent, dynamic support. Two handles on the chair's backrest let you slide the LiveLumbar to the ideal position for you.

BIFMA Level® 3

Stool	Yes
Backrest Profile	Tapered/Rectangular

# Silq

by Steelcase

Sub-Category - Task

The performance is intuitive. It responds to the natural movement of the human body. The way you move is the way it moves

The idea for SILQ was clear; we wanted to create a chair that's simple, more organism than machine. One that operates intuitively and invites the human body to participate in the experience.

To get there we pushed the boundaries of material science. Through explorations with carbon fiber, we achieved our vision. But it was a material process breakthrough that embodies the qualities of carbon fiber, that allows us to deliver on our aspiration at mass scale.

# Cobi

by Steelcase

Sub-Category - Task

The Cobi office chair by Steelcase was designed to foster collaboration and promote movement, creating a perfect solution for meetings and conference rooms.

There's no such thing as a quick meeting. We spend more time collaborating today than ever before. Squirring, fatigue, and loss of focus are unavoidable. Let's face it. Working with others requires a completely different set of postures, and thus, a completely different kind of chair. One that helps keep you comfortable and focused in collaborative settings like conference and training rooms.
